CHAIRMAN MESSAGE.

A message from **Mr. Ny Mak**
President of the Cambodia Pepper
and Spices Federation

“
***Together we
are stronger.
Together we
will benefit from
more market
opportunities.***
”

Dear Members, Donors and Partners,

As the world goes back to normal post Covid the changes around us are undeniable. We are now faced with new global challenges that we did not expect. But we also stand in front of new market opportunities and it is crucial that we rise to the occasion.

As the old saying goes “Together, we are stronger” and our amazing CPSF team of professionals is shaping up to be a network on which we can all rely when facing these new challenges and opportunities. Indeed, being part of a strong and reputable federation has never been more relevant and important and I could not be prouder today of CPSF’s vision and mission.

I am looking forward to the future as more members join our ever-growing CPSF family and more innovative programs and services are implemented. I am excited about our Online Business Portal showing its full potential in the year ahead as well as our Export Readiness Program which are bound to have a huge impact and benefit all of our stakeholders.

I hope to continue to see more of you and would like to thank all of our existing members for their continued trust in our powerful federation and our international donors and partners for their incredible support.

DONOR MESSAGE.

A message from
Mr. Sivouthan Norng
Country Director of HEKS/EPER

**HEKS
EPER**
Bread for all.

Dear Members, Donors and Partners,

Despite the ongoing pandemic, HEKS/EPER was able to expand the scope of its projects in 2021. We are proud of what we have achieved in terms of food security, income, and livelihoods among the rural communities in Cambodia.

Our involvement was particularly significant in agriculture value chains development, entrepreneurship development and climate resilience agriculture. I firmly believe that CPSF will continue to grow and tackle issues related to sustainable pepper production and accessibility to markets as well as continue to promote dialogue between all relevant actors in the sector, represent the Cambodian pepper sector at international conferences and trade fairs and act as a national link between the government and relevant stakeholders. I know for a fact that CPSF was created in the spirit of “coming together is the beginning, keeping together is progress, working together is success”.

I extend my appreciation to all CPSF board members and staff, CIRD, government agencies, and relevant key actors for their concerted effort and unwavering support for CPSF.

DONOR MESSAGE

A message from
Mr. Sereyvath Prak
Director of CIRDP

The Cambodian Institute for Research and Rural Development (CIRD) is a non-governmental organization with the mission to fight poverty and improve the livelihoods of rural communities. CIRD provides wide ranging expertise in the fields of agricultural productivity and quality improvement and facilitates the linkage and collaboration between producers, market operators and consumers in promoting Cambodia agriproducts on both domestic and export markets.

As we move away from Covid we are confronted with a world that has changed profoundly. Never has it been more important to stand together and to remind ourselves of the motto “United, we stand”.CPSF embodies the very essence of this motto.

With its innovative services and solutions CPSF also complements the vision and mission of CIRD in terms of economic development of households, producers and market operators for the pepper and spice sector. I am looking forward to seeing more members join this robust federation in the year ahead and benefit from the many privileges it offers. I am also excited to see the steps taken towards quality improvement and capacity building in order to expand into new markets and increase export sales.

Finally, I would like to extend my thanks to all the CPSF partners and donors for their constant support as well as to all the members for their ongoing trust in CPSF.

The Creation of CPSF

Background

The idea for the creation of the Cambodia Pepper and Spices Federation (CPSF) originated from two observations.

The first one pertained to the constant decrease in the price of pepper that was being observed year after year and the second dealt with the fact that many Cambodian actors in the pepper sector were still much less competitive than their Vietnamese counterparts.

In light of this, the Cambodian Institute for Research and Rural Development (CIRD) and Swiss Church Aid (HEKS) in collaboration with the Ministry of Commerce, IFC-World Bank, Grow Asia and other key actors in the pepper sector provided the necessary support for the creation of the Cambodia Pepper and Spices Federation (CPSF). The main objective of the Cambodia Pepper and Spices Federation (CPSF) is to provide Cambodian actors in the pepper sector with a unified national platform capable of promoting Cambodian pepper both at production and marketing levels for the benefit of the local producers, processors and exporters.

The main objective of the Cambodia Pepper and Spices Federation (CPSF) is to provide Cambodian actors in the pepper sector with a unified national platform capable of promoting Cambodian pepper both at production and marketing levels for the benefit of the local producers, processors and exporters.

The Cambodia Pepper and Spices Federation (CPSF) was formally created on November 9, 2018 and officially registered with the Ministry of Interior on March 15, 2019.

**CAMBODIA PEPPER
AND SPICES FEDERATION (CPSF)**

Cambodia's Number 1 Platform

***where producers and buyers
of pepper and spices can
trade swiftly and easily on
the local and global markets.***

Confirel Co., Ltd

Confirel was established in 2001 to contribute to the economic development of Cambodia after decades-long instability. Serving as a link between skilled urbanites and rural farmers Confirel aims at helping the country, particularly rural areas, prosper using its own resources by means of using new technology and creating added value. Confirel is represented by the sugar palm tree which is one of the symbols of Cambodia and its countryside. It was founded with the mission to develop high quality products recognized in local and international markets. Confirel is strongly committed to corporate social responsibility. It uses 5% of its net revenue to help the most vulnerable and gives fair benefits to all its stakeholders. Confirel's internationally certified and recognized products enchant customers worldwide.

- C**-Conservation of Natural Heritage
- O**-Originality of Local Products
- N**-New Chance of Development
- F**-Following Artisan Manufacturing
- I**-Initiative around a Tree
- R**-Right Remuneration for All Stakeholders
- E**-Employment and Training for Farmers
- L**-Link for Multi-Sector Exchanges

What we do

We preserve sugar palm trees, manufacture high quality and healthy products that are recognized worldwide, develop innovative products from the resources of Cambodia's rural areas, and produce and distribute them locally and internationally. We are dedicated to promoting authentic Khmer products and values while improving the economic conditions of rural farmers.

Why choose us?

Our corporate value While involved in sustainable rural development, Confirel wants to be a role model in respecting our partners and protecting the environment.

As a matter of principle Confirel is committed to promoting and respecting ancestral crafts, skills and know-how. Confirel is a human story based on men and women devoted to help Cambodia develop by means of the worldwide distribution of high-quality products.

Who we are

Confirel relays historical skills transmitted from generation to generation and guarantees equitable compensation to all stakeholders while preserving their unique heritage.

Creative idea

Confirel promotes authentic Khmer products and Khmer values. This means creating high value-added products that originate from the vast resources of Cambodia.

Khmer Organic Shop

Khmer Organic Cooperative Co., Ltd

Khmer Organic Cooperative, Co. Ltd is a social enterprise managing the whole agriculture supply chain from farm to market. Established in 2014 we have partnered with various stakeholders for almost 10 years in order to promote organic agriculture in Cambodia. We achieved EU and USDA organic certifications for our farms in 2016 and have since been sharing our expertise in organic farming with our partner farmers. Our customers value our products for their health benefits, ecological footprint and socio-economic impact on the development of the country. All our products comply with organic standards, food safety standards, GMP and HACCP standards. We supply international markets with unique high quality Cambodian products: Kampot pepper, cashew nuts and other grains.

We produce and supply safe food to the Cambodian people while supporting strong and empowered farmer communities. We strive to be a reliable partner in promoting sustainable agriculture while remaining committed to excellence in our effort.

What we do

All our products and services focus on quality as we work in close cooperation with relevant smallholder farmers and agricultural cooperatives.

Kurata Pepper Co., Ltd

Kurata Pepper Co. Ltd is a social enterprise established in 1994 by Japanese investors. We work in close relationship with farmers and communities living in Cambodian rural areas. From medieval times to the 1960's Cambodian pepper was considered the best pepper in the world. However, production decreased sharply due to the turbulent events that took place afterwards. Since 1997 though we have successfully grown organic pepper on a farm located at the foot of the Cardamom mountains.

Cambodian pepper was considered to be the most delicious pepper in the world from the Middle Ages to the 1960's. However, pepper production fell drastically afterwards.

Mr. Hamaya Tsutomu
OWNER

PLUS HAMA CO., LTD

Hama Farm in Kampot Province is owned by Plus Hama Co., Ltd, a company incorporated in Cambodia in 2014 with an investor from Japan. The farm is located in Prey Peay Village, Trapeang Phleang Commune, Chouk District in the northwestern part of Kampot province. Hama Farm has some 500 employees and cultivates pepper with nearly 200,000 pepper poles on nearly 200 hectares from a 1,000 hectare land. Plus Hama aims at becoming a leading Japanese company bringing Cambodian products to the world and fostering more investments, more industries and more business opportunities.

The company's mission is to promote Cambodian agriculture and make social contributions to the country by building a primary school, a health care center, and other infrastructures for the employees and the people in the region as well as by contributing to the development of Kampot province.

Ample Agro Product Co., Ltd.

Ample Agro Product Co., Ltd. (Ample) is a private social agribusiness company that produces, processes, and standardizes the best and most unique Cambodian agro-commodities for local and global markets. We manufacture and trade in cashew nuts/kernels (organic and conventional), organic-PGI Kampot peppercorns and Kampong Speu palm sugar, dehydrated mango and pineapple products, and dried sesame products. Our export products are certified by the following international food safety and management systems: GMP, HACCP, GFSI, NOP/USDA, PGI, Environment Friendly, and Fair Trade. Ample aims to not only supply healthy food products to the world, but also to contribute to the sustainable development of agriculture and the protection of the environment. Ample also adheres to business and ethical values aligned with cooperate social responsibility (CSR) and inclusive business development.

Ample manufactures Cambodian cashew nuts/kernels and trades in other unique Cambodian agro-commodities that comply with international food safety standards.

Ample Agro Product

What we do

We produce, process, and standardize the best and most unique Cambodian agro-commodities for local and global markets, especially cashew nuts/kernels. We implement farming/processing contracts to purchase raw cashew nuts and semi-processed cashew kernels from agriculture cooperatives (AC), community protected areas (CPA) and small and medium processors. We supply quality agro-inputs to agro-producers in order to increase and standardize the production and meet market demands. We provide technical consultation in order to develop agriculture plantation and natural reforestation through sustainable management.

Creative idea

While focusing on fair trade Ample produces healthy food products that contribute to the sustainable development of agriculture and the protection of the environment.

Who we are

Ample aims to become one of the leading investors in agriculture, especially in the cashew sub-sector, by forming mutually beneficial partnerships with small-and-medium farmers and agro-processors.

Why choose us?

Manufactured high quality natural cashew kernels and other agro commodities from Cambodia. Products prepared and packed to international quality standards. Food safety standards that meet every requirement (GMP, HACCP, GFSI, Organic NOP/USDA, PGI, Environment Friendly, and Fair Trade). Fair treatment of growers, workers, and all value chain actors. Engaged with poor famers, women, ethnic groups, environmental conservation, sustainable agriculture, and cultural protection.

Agricultural Cooperatives & Associations

Kampot Pepper Promotion Association (KPPA)

KPPA is a non-profit inter-professional association registered with the Ministry of Interior that was founded on October 3, 2008 with the support of Pilot Project for Geographical Indication Protection in Cambodia (PGI project) of the Ministry of Commerce in collaboration with the Ministry of Agriculture, Forestry and Fisheries of Cambodia and funded by the French Agency for Development (AFD). The main objective of KPPA is to promote and protect the know-how and the reputation of Kampot pepper for the benefit of producers, operators and consumers. As of 2021 KPPA counts among its members 403 producers and 42 operators. With the presence of KPPA, Kampot pepper has been registered as GI product in Cambodia, Vietnam, Thailand, Europe and in and additional 32 countries in the world thanks to the Lisbon agreement with the support of WIPO (World International Property Organization). Since its foundation, KPPA has had 3 main strategies for its members: increasing the production of Kampot pepper, improving the quality of Kampot pepper, and promoting and protecting the name of Kampot pepper both in national and international markets. In order to have one voice representing the pepper sector in Cambodia, KPPA joined the efforts that established the Cambodian Pepper and Spices Federation (CPSF) and has been an active member of the federation since 2019.

Quality: Providing professional services in agrifood businesses.

Riel Tiger Solutions Co., Ltd.

Riel Tiger Solutions Co., Ltd, Riel Tiger Solutions (RTS) was established in 2017 under the name of Sourire Pro and Arts Co., Ltd (S.P.A). We transitioned from a traditional marketing agency to a digital marketing agency under the name (RTS) with a renewed focus on working on the promotion and design of local products and services. The company has worked on hundreds of projects related to advertisement such as digital marketing, packaging development, marketing material and event management such as the Sipa gala dinner. With the support of GIZ the company has led the training on packaging development for 50 local agricultural processors.

RTS is a thriving business which is currently engaged in the improvement of product packaging for local companies and their sales in e-commerce.

What we do

We provide assistance in the following areas: tax preparation (monthly & annually), tax advisory, pre-tax audit and reviews, tax planning and tax incentives, tax reassessment reviews and assistance with the tax audit process

Why choose us?

Teamwork: we work together as a team synergized as one.

Ethical: we are reliable and trustworthy in all the work we have done and will do next.

Passionate: we are committed to our clients expectations and interests.

Knowledge: we are empowered by the key skills we have acquired through professional experience and are keen to use them for the benefit of our clients.

Who we are

It is crucial to understand the tax environment in Cambodia. We are not just tax advisers, but also practical tax specialists. SOTA can help your company with the tax lodgment of your business in Cambodia. We have enrolled tax agents admitted by the General Department of Taxation (GDT) and provide a full range of services in tax preparation. Our services can be used not only for simple return, but also for more complex return.

Creative idea

The rapid growth of our business is the result of trust, commitment and loyalty of our customers and partners. We want to see all companies with a standard accounting system to ensure that all business transactions are mutually beneficial and profitable.
